WORK EXPERIENCE

Marketing Intern | BU Engineering Career Development Center **September 2025 - Present**
Boston, MA

- Lead cross-functional collaboration with career advisors to define project goals and design **25+ digital assets**, using data analysis to enhance outcomes and increase CTR by **15%**
- Manage weekly communications for a **3000+ student audience** by applying engagement analytics and strategic refinement, translating raw data into actionable insights for content optimization and continuous improvement
- Embed structured metadata (skills, tools, domains, metrics) within campaign documentation and performance summaries to improve clarity and traceability across reports and portfolio materials

Tech & Innovation Intern | SXSW (South by Southwest) Sydney **March 2025 - May 2025**
Sydney, NSW, Australia

- Conducted structured market research on **100+ emerging technologies and AI startups (generative AI, climate tech, immersive media)** to inform strategic content curation and innovation sessions, applying analytical frameworks to support decision-making
- Built and maintained industry relationships through targeted outreach, improving engagement with key stakeholders and driving an **18% increase in participation interest**, showcasing strong communication and relationship management skills

Project Manager Intern | Boston University AdLab **January 2024 - May 2024**
Boston, MA

- Developed and maintained project timelines for a strategic **10-week integrated campaign** with the Geena Davis Institute, applying tools such as Gantt Charts and progress reports to monitor team workflow and potential roadblocks
- Managed cross-functional communication between creative, strategy, and account teams, as well as the executive board and client across 3 core deliverables: **20th Anniversary logo/theme lockup, long-form MARS case study video, and short-form Tiktok content series**, ensuring streamlined feedback loops and clarity in expectations
- **Drafted press releases, coordinating media outreach, and creating LinkedIn announcements** for a campaign reaching an audience of 152,000+ followers across social platform

TECHNICAL SKILLS

Programming & Web: HTML, CSS, JavaScript; API integration, responsive design fundamentals
Data & Analytics: KPI tracking, A/B testing fundamentals, engagement and funnel analysis
